

ALLEGRA E BAINVGNIEU AL INVIERN

Our Snow & Fun programme encompasses all aspects and disciplines of Alpine skiing – GENERAL TECHNIQUE – COMPETITIVE TECHNIQUE – OFF SLOPE – JUMPING – FREESTYLE – MOGULS. It is a service offered by Silvaplana Top Snowsports Ski & Snowboard School exclusively to its Customers: a different and unique alternative to traditional ski lessons or standard racing training in the Engadin.

WHAT IS SNOW & FUN?

A sports and recreational programme for all the young people who would like to explore the full spectrum of the world of snow and the mountains.

The idea came from professionals who experience the mountains all year round and who have been teaching skiing for nearly three decades. It aims at offering young people aged 10 to 18 a new form of teaching including a more interesting mix of winter disciplines.

Our programme includes:

- Teaching and refining your ski technique.
- Teaching and refining freestyle basics.
- Teaching and refining your competitive technique.
- Introducing, teaching and giving information on freeride with our competent guides holding an international IFMGA patent
- Performances during ski school shows in the Engadin
- Our programme will also include some days in different ski resorts such as Laax, Dissentiss, Livigno and Madesimo (or other major resorts to be identified during the winter season) to discover the most beautiful skiing places in the Alps.
- Extra travel costs for trips outside the Engadin (hotel / ski pass / lunch / dinner / transport) shall be borne by the participants and are not included in the basic fee.
- But this is not just about ski slopes: we also offer some optional days to try new techniques such as snowboard and telemark, always in the name of fun.

And if the weather were bad No problem, we also have plenty of indoor and outdoor activities that we could practice in case of bad weather such as ice skating, tobogganing, swimming, horseback riding, trampoline or even ski mountaineering (in areas fit for the level of the group).
